

SELF-EDUCATION INITIAL LIST:

1. Study the differences in language between Black's Law dictionary (sea jurisdiction/admiralty/corporate commerce law) and Webster's dictionary (language of the common man you were taught).
2. Study the differences between what you find in #1 above with the Land jurisdiction lawful dictionary: Bouvier's Law dictionary.
3. Comprehend the difference between legal and lawful, residence and domicile, driver and traveler, motor vehicle and private conveyance, person and people, warranty deed and land patent, even the word "understand" vs "comprehend" just to name a few. And let's not forget to look up and compare the definition of "mandate".

Start at the beginning, and literally work your way through every single link on the entire page.

7. Watch Anna's webinars, starting with July 12th, 2021 and work forward. This may seem like old info, but it is important to see and know the progress over the past months of what Anna has been working on to move forward. <http://www.annavonreitz.com/videos.html>
8. Turn off the TV and radio!! You will take in the new information much better if you shut out the propaganda and corporate drama, which is an intentional distraction at best, and a psyche attack at worst. It's just the truth... and that's coming from former Special Forces Intelligence and Security man (me) from the Cold War.

Remember, don't play 20 questions with others. Do your own research, and find out for yourself. That is your responsibility. However, when you're ready for a conversation about research you've done, join us on Telegram here: <https://t.me/MichiganAssemblyOfficialGroup> (Real names and photos only please.
