This is the email received by RS last year when LRS was closed. Records were to be kept indefinitely searchable.

Notice to all LRS Recording Secretaries:
Yes, big changes have come.

AmericaUnincorporated.org (the LRS) will no longer be taking new accounts and any further business. All existing member account holders will continue to have access to their AmericaUnincorporated.org accounts and all publicly published documents will remain accessible on <https://Search.AmericaUnincorporated.org> indefinitely. All existing credentials cards will continue functioning normally as well. The LRS has been updated with the changes as described.

Recorder Accounts will continue to function through September 24th, 2022. To help wind up any member accounts that need to finish publishing paperwork or to adjust any existing documents, your Recorder accounts have been enabled to provide publishing credits free of charge for anyone needing additional credits. The 3rd tab in your main Recorders view, "Create New Orders", where you previously needed to use a credit card to assign new publishing credits to your Recordees is now set to work without requiring an actual purchase. You can assign publishing credits as needed to help anyone who needs to complete their final paperwork in over the next month. After September 24th, all Recorders accounts will be disabled and the public record "frozen" as is.

At this time no new publishing credit purchases by Recordee member accounts will be facilitated. Any additional credits necessary will need to be obtained as described above. New credentials card orders will continue to be taken until September 24th when it and all other Recordee member account functions will be made inaccessible. Again, the public record will remain accessible at <https://Search.AmericaUnincorporated.org> as long as the need for it exists.

I want to personally express how much of an honor and pleasure it has been in working with you all and

helping the 22 thousand+ LRS member account holders improve their present and future. I wish you all the best as you move forward in pure energy.
